SKILLS

Technical Skills: C++, Python, Java, HTML, CSS, JavaScript, PHP
Frameworks: React.js, React Native, Node.js, Next.js, Bootstrap
Tools/Platforms: GitHub, VS Code, Figma, MongoDB, MySQL
Soft Skills: Adaptability, Leadership, Problem-Solving, Communication, Teamwork

PROJECTS

StudentNest– Smart Student Housing Platform | [Github](#) Jul'25-Oct'25

- Created a web platform that helps students find verified rooms and connect with room owners through secure OTP login and user role management.
- Added features like room search, filters, booking requests, messaging, and meeting scheduling to make the renting process simple and reliable.
- Improved user experience by ensuring fast performance, clean layout, and smooth navigation across student, owner, and admin dashboards.

Tech Stack - *Next.js, TypeScript, Tailwind, MongoDB*

Attendance-Pro Management Website | [Github](#) Mar'25-Apr'25

- Engineered a web-based attendance management system to digitize and streamline attendance recording, minimizing errors and improving data reliability.
- Integrated secure authentication, and real-time database synchronization for efficient tracking and administrative control.
- Enhanced institutional workflow efficiency through interactive dashboards, advanced filtering, and analytical insights for better attendance monitoring.

Tech Stack - *HTML, Tailwind CSS, JavaScript, PHP, MySQL*

TRAINING

Cipher Schools (Edtech Company) | [Certificate](#) Jun' 25 – Jul' 25

Ethical Hacking & Cybersecurity Training

- Practiced ethical hacking techniques to find security weaknesses in systems using Kali Linux tools. This helped improve understanding of how attackers find and misuse system vulnerabilities and how to prevent them.
- Explored core security concepts such as encryption, password protection, and secure login methods to understand how data is kept safe.
- Applied vulnerability checking methods using simple testing tools to identify and fix common security risks in networks and web applications. This enhanced the ability to suggest safer security practices for systems.

CERTIFICATES

UI/UX Design with Figma | [Udemy](#) Nov' 25

Complete Java Core | [Udemy](#) Nov'25

Human Computer Interaction | [NPTEL](#) Apr' 25

ACHIEVEMENTS

Practiced programming and DSA problems on **LeetCode, HackerRank, and CodeChef** Nov'25

Participated in **IIIT Gwalior – Infosys Hackathon**, contributing to student house-seeking solution. Oct'25

EDUCATION

Lovely Professional University Phagwara, Punjab
Bachelor of Technology Aug' 23 – Present
Computer Science and Engineering; CGPA: 7.0

St. Francis Xavier's Convent School Mandi, Himachal Pradesh
Intermediate | PCM Apr' 21 – May' 22
Percentage: 90%

St. Francis Xavier's Convent School Mandi, Himachal Pradesh
Matriculation Apr' 19 – May' 20
Percentage: 84%
